Welcome to STAT 244NF: Infectious Disease Modeling

Lecture 0

Marie Ozanne

Class Plan

- Welcome, introductions, and ice-breaker
- Class overview and syllabus
- Class activity: "Agent X"
- R and RStudio (time permitting)

Welcome, introductions, and ice-breaker

When it is your turn, please share the following information:

- Name and preferred pronouns
- Class year
- Infectious disease you are most interested in studying

Class overview and syllabus

https://marievozanne.github.io/STAT244NF/

Class activity: "Agent X"

Paper copies of the class activity will be given to you. If you wish to access an electronic copy, please visit the calendar on the class website: https://marievozanne.github.io/STAT244NF/calendar/ and click on Class Activity: "Agent X" under today's date.

Summaries of our discussion of this activity will be posted to the class website after class.

R and RStudio

If there is time at the end of class, we will spend a few minutes making sure that those who want R downloaded on their computers (but do not have it downloaded yet) can get it downloaded, and that everyone can access the RStudio server.
